- 1. You have to click on the 'insert' button at the bottom of the screen to be able to allocate. This puts the screen in insert mode.
- 2. Tick the 'From Bin' box under product filters
- 3. Select a specific bin from the drop down list
- 4. Click on 'Fetch'
- 5. Enter the quantity in the 'to bin' field. Save at the bottom of the screen on the 'save' button.
- 6. You can allocate multiple products at once using the 'set qty' on the left hand panel, and then clicking on the save button at the bottom of the screen.

are doing is the best - that is inspiration. Robert Bresson

Set Quantity	

- 1. Enter the amount you would like to allocate under the 'transfer' field
- 2. From the drop down under the 'To Bin', select which bin you would like to transfer to.
- 3. Click on the 'Save 'at the bottom of the screen
- 4. Click 'Yes' when asked to confirm to update bins.
- 5. 'Bin Allocations Successful' message will appear. Click 'Ok'

Selling out of a Bin In P.O.S

- 1. Search for a Customer
- 2. Search for a Product
- 3. 'Product Bin Select' screen appears. Note that the default bin selected in the user catalog will automatically be selected (highlighted)
- 4. Another bin may be selected if you wish to sell out of a bin other than your default bin. This is where the Bin Supervisor option in the system options will be required.
- 5. Click on 'Select'
- 6. Save in the Point of Sale either as an invoice, etc.
- 7. If the 'qty on hand' is less than the desired selling quantity, the 'Product Bin Select' screen will pop-up after adding full quantity from the first selected bin.
